KA-115

Dry Fertilizer Distributor Control System

KA115 WIRELESS DISTRIBUTOR CONTROL SYSTEM

BLEND TOWER DISTRIBUTOR:
Alley way Light Display Panel shows the loader operator the Distributor location.

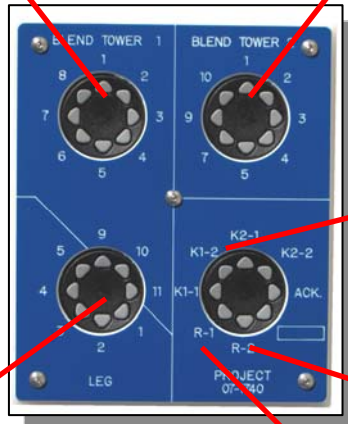

The KA115 is a wireless control system that will allow the loader operator to move the distributors, or two way valves to the proper location from the loader. A simple touch of the selected button will signal the system to move the selected distributor.

WHOLESALE TOWER DISTRIBUTOR:
Alley way Light Display Panel shows the loader operator the Distributor location.

A Computer Graphics program is also available to switch or monitor the Distributor location from the office PC.

TWO WAY VALVES:
Alley way Light Display Panel shows the loader operator the Two Way Valve locations.

LEG (UPPER) DISTRIBUTOR:
Alley way Light Display Panel shows the loader operator the Distributor location.

KA115 Wireless Panel control works with the above panels to allow the loader operator maximum utilization of his time during the bin filling process.

RECLAIM CONVEYORS & LEGS:
The KA115 system allows the loader operator to start/stop each Reclaim Leg, Drag Conveyor and Conditioner..
